The Monster Hunter Club – The Ghost Train of Bad Murks

Volume 1

The protagonists:

Emilia is six years old and very smart. She is never afraid. Or maybe sometimes, a little. At most.

Max is seven years old and the fastest at running. He even dares to go down to the basement at night.

Grandpa is the best inventor in the world. He rarely goes on the monster hunt. He has way too much to do in his workshop.

The Monster Blower blows every monster out of the way. But it also drives away ghosts and spirits.

The Snooping Pig is always hungry. With its fine snout it sniffs out every monster. But it can also find cake quite easily.

With **The Monster Cell Phone** one can take photographs of invisible monsters, ghosts and spirits.

Excerpt from vol.1 :

Emilia and Max look like normal children. But in reality they are monster hunters. Their grandpa has invented the monster cell phone. With it they can take pictures of invisible monsters and ghosts. Right now, Max is taking a picture of the street.

"There are seven monsters on our street!" exclaims Emilia excitedly. "We have to tell Grandpa about that right away!" Max and Emilia run to their headquarters. There are two more monster hunters in their group: grandpa and snooping pig. The door of the shed is locked. Grandpa is hammering away and can't hear them. Where is the spare key?

Max takes the key from the garden gnome. Grandpa is tinkering with a machine. "Here's my latest invention," he exclaims. "The monster blower!" The thing looks like a hair dryer. But it drives away every monster and ghost. Grandpa is very sure about that.

Emilia and Max sit down on the sofa. There's a knock at the door. "Come in, if you're not a monster!" calls Grandpa.

An old lady comes in. "Are you the monster hunters?" she asks in wonder. Max nods. "Grandpa is the boss," he says. "Emilia and I drive the monsters away. And Snooping Pig finds them." Max looks around. Where the heck is Snooping Pig?

Emilia takes Snooping Pig in her arms. She had spotted his curly tail in the closet. "My name is Griselda Graus," the lady continues. "I inherited a ghost train in Bad Murks." Emilia and Max think this is great. But Griselda is all confused. What has Griselda mixed up?

Find five mistakes !

Griselda could have left the flowerpot, ski pole, and alarm clock at home. She's also missing a boot and her coat is on backwards! "What's wrong with the ghost train?" asks Grandpa. "Not all the monsters are fake," whispers Griselda Graus. "Some are real!" "Emilia, Max, and Snooping Pig will chase them away," Grandpa promises. Emilia takes the monster cell phone. Max gets the monster blower. And Snooping Pig gets a carrot. Then they all set off, except for Grandpa. He stays in the shed and continues working.
